

Benefits of Membership

FY18 (10/1/17 to 9/30/18)

The Mid-Michigan Library League (MMLL) is one of Michigan's eleven library cooperatives, formed under and funded through the State Aid to Public Libraries Public Act 89 of 1977. Section 2(f) states "Cooperative library" means the library or service center designated by a cooperative board to execute services established by a cooperative plan and provided to libraries participating in a cooperative. Cooperatives are able to provide services that are more efficiently and economically achieved via group purchasing and coordination, leaving the more unique, community-centric activities to the individual library. The Cooperative does not provide direct service to the public but instead supports its member libraries in their efforts to better serve the public. The members of MMLL work together to share resources and provide quality services to their users.

Every year, public libraries and cooperatives in Michigan submit an annual report/state aid application, due by February 1st. Funding is distributed on a per capita basis, the amount determined annually by the State budget signed by the Governor. The Act from 1977 intended funding at \$.50 per capita, however it has not been funded at that amount, even in current dollars, for more than ten years. For FY2018, the per capita amount is estimated at \$.36. Funds are distributed after the state aid applications are reviewed and validated.

Funding breakdown: *see note below*****

The total amount allocated in the State's annual budget for state aid to libraries is disbursed in thirds:

1/3 – Direct Aid (library): All public libraries meeting the criteria for state aid that have filed by the deadline shall receive per capita funding for the population they serve (legal service area plus any contracts for service).

1/3 – Indirect Aid (cooperative membership): All public libraries with membership in one of the State's eleven library cooperatives shall receive indirect state aid per capita funding (also known as "swing," "16:4," or "Cooperative membership" aid). Based on each cooperative's plan of service, these funds may be billed partially or entirely by the cooperative for services provided for the year.

NOTE: These payments are **combined** and go out as one check twice a year. Half of the combined amount is paid in the spring, half is paid in the late summer. Each time the library receives the payment, they are billed by the cooperative for the indirect aid, so half of each check received is intended as payment for cooperative services.

1/3 – Direct Aid (cooperative): All library cooperatives meeting the criteria for state aid that have filed by the deadline shall receive the per capita funding for the total population served by their member libraries.

*****Important note:***** If a library does not belong to one of the eleven Michigan library cooperatives, that library will **NOT** receive the indirect aid, nor will any single cooperative receive the per capita aid for their service population. Instead, the funds that might have gone to the library and the cooperative it belongs to are put back into the initial budget and re-divided among qualified libraries/cooperatives. So, if a library leaves a cooperative and does not join another one, they will not see any additional funds or service from State Aid.

Core MMLL Services: The cooperative board shall provide, directly or through a written contract, services to member libraries within the cooperative area. These services are listed below.
