eBookCentral

iPhone and iPad eBooks

You will need: a library card and PIN, an iPad, iPhone or iPod Touch, and an Adobe ID.
File types: EPUB, MP3 (for PDF, use Bluefire; Kindle, the Kindle app)

Getting started
1. Make sure you have a current library card.
2. Confirm you have iOS 4.0 or newer
3. Install OverDrive Media Console
4. Launch OverDrive Media Console.
5. Authorize your device. You will need to enter your existing Adobe ID or create one if you don't have one.
6. Tap the Get Books + button.
7. Tap Add a Library.
8. Enter your ZIP code or the name of your library. Find the name of your library, and then tap the star next to the name to add it to your list of libraries (you can add other libraries that you go to, like Brooklyn Public Library or Queens Library!)
9. Tap the name of the library to go to the ebook catalog.

Checking out ebooks
10. Look for books marked as EPUB. PDF is not compatible with the OverDrive app, but you can open PDFs with other apps that support Adobe DRM.
11. Once you find a title you wish to download, click Add to eList on the right side of the entry. You have 30 minutes to complete your checkout before the eBook is returned to the library's collection.
12. If you see an item where this is not an option, click Request Item to be placed in the hold queue. You will get an email when your book is available.
13. Click Proceed to Checkout. Enter your library card number and PIN.
14. You can adjust the lending period to 7, 14, or 21 days. You may check out up to 12 eBooks at one time. After choosing your lending period, click Confirm Checkout, and then click Download on the next page.
15. OverDrive Media Console will launch.

Reading ebooks
16. Tap the book cover to start reading.
17. Tap the arrow icon to see information about the book, table of contents, and bookmarks.

Returning ebooks
18. To return a book, swipe across the row, and tap Delete.
19. You will then have the option to keep it on your account and delete, or Return and Delete.
