The kits were almost always early.

2/5/2018 10:33 AM [View respondent's answers](#)

But I had to send them back before I could use them. I even had to have my husband drive them up to Manistee so they would have them on time for there event. (We also have had problems with our RIDES driver not showing up on a delivery day, so that throws another wrench into the schedule).

Yes, very complete with a rainbow of options and choices.

2/27/2018 3:39 PM [View respondent's answers](#)

All supplies were there.

7. Tell us about a successful program you have done with any of the MMLL circulating materials

- Answered: 11

[RESPONSES \(11\)](#)

We had great numbers for our summer reading programs. These kits are great for the Build a Better World and Maker Days.

2/27/2018 6:53 PM [View respondent's answers](#)

Print your own project. Sign up, instruction then take it home. 2 hour blocks are very manageable.

2/27/2018 3:39 PM [View respondent's answers](#)

With our theme for reading month being STEM I have checked out some maker kits for the teachers to use in the classroom.

2/27/2018 1:19 PM [View respondent's answers](#)

Several, including sewing class and cooperation with building trades and art classes at the school.

2/27/2018 9:28 AM [View respondent's answers](#)

I tend to use the kits as part of already existing STEM programming, so each kit helps me enhance events I'm already offering.

2/8/2018 3:15 PM [View respondent's answers](#)

Hosting behavior incentive day for our local school which brings in over 200 kids throughout the day.

2/5/2018 3:23 PM [View respondent's answers](#)

In December, we brought in the 3-D printers and let patrons sign up for 2 and 3 hour time slots to make whatever they wanted and billed it as a holiday gift-making opportunity. Every single time slot for two weeks was booked, and we had an incredible turnout in patrons of all ages.

2/5/2018 1:26 PM [View respondent's answers](#)

I brought many of the kits to Project FOCUS a summer program held at the local school for the children in grades 1-4 to use. They especially enjoyed the Make-dos that I brought along with plenty of cardboard and markers.

2/5/2018 10:33 AM [View respondent's answers](#)

We love Ozobots a lot!

2/4/2018 1:36 PM [View respondent's answers](#)

We used it for Teen Game night as one of the centers.

2/3/2018 11:13 PM [View respondent's answers](#)

Have not had a successful program yet. The schedule part of this has not worked well. We are giving it another time in the next couple of weeks. We don't want to give up because this is a great collection! We will stay positive that things can be worked out!

8. Can you think of any additional materials that could be available for loan from your library cooperative?

- Answered: 18

[RESPONSES \(18\)](#)

Not at this time. I'm just learning what all there is that you offer!

2/28/2018 1:54 PM [View respondent's answers](#)

Nothing coming to mind at the moment.

3D Pens-We love the maker space support!

2/27/2018 3:39 PM [View respondent's answers](#)

I would like to see some kits for telling stories to use during story hour.

2/27/2018 1:19 PM [View respondent's answers](#)

No, but it made us improve some of our own maker-space items for the library.

2/27/2018 10:27 AM [View respondent's answers](#)

No

2/27/2018 9:39 AM [View respondent's answers](#)

Nothing comes to mind... It would be nice to look through other library's offerings. RLC might bring additional inspiration!
